It seems that Fender have thought of just about everything you could want and with a healthy 250 watts of output, this is an extremely practical unit to use. Although we felt the styling was a little on the bland side compared with the Bassman's earlier, original incarnation, the relatively lightweight design means that it's highly practical and easy to tote

The regular 50-watt model remained available during the short (1969-1971) tenure of the Super Bassman. This model became the 2×15" Bassman 50 in 1972, a year that also saw the arrival of the 50-watt Bassman 10 combo (the first 4×10" version in more than a decade, although it had a sealed back) and the
