Index to Outline of Phenomenology

In the Göttingen years, Husserl drafted the outline of Phenomenology as a universal philosophical science. Its fundamental methodological principle was what Husserl called the phenomenological reduction. It focuses the philosopher's attention on uninterpreted basic experience and the quest, thereby, for the essences of things.

Edmund Husserl - Phenomenology as the universal science ...

The subject, more definitely seized, is Spirit (the Mind). It is Phenomenal when essentially relating to an existent object; in so far is it Consciousness. The Science of Consciousness is, therefore, called The Phenomenology of Spirit (or Mind). 5. But the Mind, according to its self-activity within itself and in relation to itself independent of all relation to others, is considered in the Science of Mind proper, or "Psychology."

Hegel - Outlines of Hegel's Phenomenology

Edmund Husserl (1859-1938), a philosopher, established the discipline of phenomenology. In Husserl's approach to phenomenology, now labelled descriptive phenomenology, experiences are described and researcher perceptions are set aside or 'bracketed' in order to enter into the life world of the research participant without any presuppositions. 1 Experience is recognised to involve perception, thought, memory, imagination and emotion, each involving 'intentionality', as the ...

Phenomenology as a healthcare research method | Evidence ...

Social phenomenology is an approach within the field of sociology that aims to reveal what role human awareness plays in the production of social action, social situations and social worlds. In essence, phenomenology is the belief that society is a human construction.

Overview of Social Phenomenology - ThoughtCo

The preface opens with a definition of phenomenology as "the study of essences... all problems amount to defining essences, such as the essence of perception or... consciousness." In the philosopher's hands phenomenology will attempt to describe and analyze the structure of consciousness by looking at its fundamental building blocks.

Phenomenology of Perception Plot Summary | Course Hero

The Phenomenology of Spirit (German: Phänomenologie des Geistes) (1807) is Georg Wilhelm Friedrich Hegel's most widely discussed philosophical work; its German title can be translated as either The Phenomenology of Spirit or The Phenomenology of Mind.Hegel described the work as an "exposition of the coming to be of knowledge". This is explicated through a necessary self-origination and ...

The Phenomenology of Spirit - Wikipedia

In broad terms, phenomenological research refers to researching how an individual perceives the meaning of an event, as opposed to how the event exists beyond the perception of people. This form of research endeavors to understand what a group of people felt during a phenomenon.
