The air cleaner element of the Suzuki Raider 150 is made of paper. It has to be cleaned every 4,000 km. Usually with time, the air filter element loses its capacity to filter dust and has to be replaced. A trained eye will know when to replace the element. Suzuki says that it's ideal that for every 30,000 km, the filter change is done.

Suzuki's latest Raider has been making the rounds on the Internet lately — not just because it's a new Raider, but because it's poised to fight in the dual-sport underbone segment currently dominated by a certain bike from another Japanese manufacturer.. A whole horde of people have been, well, indifferent to the Crossover's announcement. Many wonder why it took Suzuki this long to ...
