Timing And Time Perception Annals Of The New York Academy ...

Like other senses, our perception of time is not veridical, but rather, is modulated by changes in environmental context. Anecdotal experiences suggest that emotions can be powerful modulators of time perception; nevertheless, the functional and neural mechanisms underlying emotion-induced temporal ...

Timing Competence and Timing Performance: A Cross-Species ...

Studies concerning time perception lack a validated assessment tool and a consensual “gold-standard” measure. Moreover, the present evidence suggests modification of timing with aging. This study aimed to develop and validate a neuropsychological tool to measure time perception and to study temporal perception with aging.

Assessment of time perception: The effect of aging ...

Timing and Time Perception - SCImago Journal Rank

A clear example of the progress in the field of timing and time perception could be obtained by contrasting two articles published 30 years apart in the influential Annual Review of Psychology (ARP): one by Fraise (1984), and one by Allman et al. (2014). The fact that there was one author 30 years ago, and a group of authors now, is a tangible sign of the contemporary way of approaching
